

Project Spotlight Industrial

PROJECT:

ETHANOL PRODUCTION

APPLICATION RO Pretreatment for Ethanol Production

FEED SOURCE Surface and/or Municipal Wastewater

PROJECT TYPE Retrofit of Motimo MOF/UOF

SYSTEM CAPACITY 100 GPM

START-UP DATE First in January 2016

PRODUCT Scinor TIPS PVDF UF

MODULE TYPE SMT600-P40

MODULE QUANTITY 10 per rack

REASON FOR REPLACEMENTReduced capacity
Short Service life

Limited product availability

RESULT Restored design capacity

Higher recovery rate from chemical cleaning

Product availability and local engineering support
